*Welcome to our 14th Annual Sale.* We are grateful for your interest and would like to sincerely thank our loyal customers and friends for your continued support. We value your decision to use our genetics and your resulting success is certainly gratifying.

Please remember, **bulls have the greatest economic impact on any breeding program**, thus bull selection is one of the most important decisions and investments that a cattleman makes during the year. **A bull sires 20-50 calves per year** while a cow produces less than half this many offspring in her entire lifetime! **For the most part, herd improvement comes from bulls.** As seedstock producers we never underestimate our responsibility to produce functional, user friendly bulls that will positively influence the bottom line of **commercial cattlemen.**

These bulls are bred to produce better replacements to positively influence the future of your cowherd and steer calves that weigh more at weaning with less inputs.

As our cowherd annually improves, so does our bull pen. High quality from the first bull in the ring to the last ensure that everyone in attendance has the opportunity to own a superior Herd Bull at a reasonable price!

As usual, most of the yearling sale bulls will be January and February born calves, thus being nearly 14 months old at sale time and most being 16 months of age when required to breed. Although our 2 year olds are not pictured this year, they are an excellent set of intentionally held over Red Angus bulls.

*These bulls were chosen from a group of 300 and were all fed together responsibly here at the ranch. No bulls were shown or pampered, they are all in one contemporary group and run together. Every bull has been semen tested and evaluated for soundness by a veterinarian.*

We pride ourselves in customer satisfaction and service providing you with the "**best guarantee in the business**". In the unlikely event that there is a problem with your U2 bull, we will take care of you! We specifically keep spare bulls on hand so your cows or heifers will get bred, no questions asked!

Again, we appreciate your support and confidence in our program and look forward to carrying on that relationship long into the future. With a new decade brings optimism that the historic cattle cycle is turning for the better.

Please stop by for a visit or give us a call, your input is appreciated!

See ya sale day!

Sincerely,  
Darren , Joanne, Cole & Jordy

## U2 Red & Black Angus Bull Sale

### – Explanation of EPD's –

- BW:** Birth Weight - expressed in pounds, is a prediction of a sire's ability to transmit birth weight to his progeny.
- WW:** Weaning Weight - expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny.
- YW:** Yearling Weight - expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny.
- Milk:** A predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters.
- TM:** Total Maternal - 1/2 Weaning Weight + Milk. This index is the expected amount of pounds that a sire's daughters' calves will differ from the breed average assuming the daughters are mated to sires of average genetic merit for Weaning Weight.

### – Explanation of Performance Data –

- BW** ..... Actual Birth Weight
- Adj. 205** ..... Weaning Weight (*in lbs.*)  
adjusted to 205 days and for  
Age of Dam
- Adj. 365** ..... Yearling weight (*in lbs.*)  
adjusted to 365 days
- WPDA** ..... Weight Per Day of Age (*in lbs.*)
- A.O.D.** ..... Age of Dam
- S.C.** ..... Scrotal Circumference (*in c.m.*)

Use EPD's only as a tool in evaluating an animal. They are only a computer's prediction and do not evaluate quality.

When you have a question about a bull's performance, especially maternal aspects, *ask* the breeder about the pedigree or, better yet, go see the breeder's herd for yourself.

At U2 Ranch, we are using the best genetics possible to produce good cattle, not just good EPD's!

### – U-2 BULL WARRANTY PROGRAM –

To further improve our Customer Service, we are introducing our optional U-2 Bull Warranty Program. We are offering an "All Risk Bull Warranty" that basically provides full coverage if anything happens to your bull throughout the breeding season with a hassle free, easy to understand policy. If a problem arises with your bull, call us immediately and we will look after you. Call for more details.

*And now, here's the most important thing to remember about this sale...  
Every Bull is Guaranteed 110%! We stand behind every bull we sell  
and are not happy until you are!!*

### HIGH SELLING BULL BUYER AWARD

## U2 Red Angus Two Year Old Bulls

### OUR TWO YEAR OLD PROGRAM -

*Although weather did not permit photographing our two year old bulls this year, rest assured this group is top quality!*

These two year olds were strategically held back to accommodate our increasing interest in mature bulls. We are proud of what we feel are a **very consistent set of virgin 2 year old bulls.**

All are, of course, performance and semen tested and ready to go to work.
